Netherwood Park Yesterdays

Did the three teachers-Ada Cutler, Alcinda Morrow and Martha Taylor- really build a house with a corner common to their three properties? This house is more legend than fact. In 1891, M.P. Stramm, a local fruit wholesaler, starts the Terrace Addition Improvement Company with several other business leaders. Each pledges to build a house in the area. Stramm names the streets after trees-Cedar, Elm, and Oak (near Presbyterian Hospital today) and starts to build his house. He digs a well for water and nearby farmers protest and throw rocks at him. His other backers abandon the project and Stramm puts off his plans for several years until the water problem can be solved. Our three teachers dreamt of a house but probably faced the same problem. By 1899 all of them left Albuquerque-Morrow for California, Taylor for Arizona, and Cutler for Denver-while still holding the rights to their land. If you know something about the history of our neighborhood, please call me, John Vittal, at 266-0882. I would especially like to hear again from the gentleman whose grandfather designed the Monte Vista Fire Station

CRIME REPORT

In late August and again in September a bike was stolen from the backyard of a residence near 1700 Richmond.

During August and September four cars were broken into and a scooter stolen on the west side of the Indian Plaza Apts. The Apt. manager saw two men stealing tires from a car parked in the same area.

On Sept. 24 near the 1700 block of Stanford there was a residential burglary, it was the 3rd burglary in four months.

On Oct. 5 the US Postal Inspector notified a neighbor near the 1800 block of Stanford concerning mail stolen from his residence about Sept. 29 when several suspects were apprehended. Due to the large amount of stolen mail found others in the neighborhood may have been affected by the theft.

After reporting a crime or suspicious activity to APD (242-COPS), please also contact either your block captain and/or Carol Renfro 260-0627 or any other board member.
